

New! To Enhance Your **Raceclock™** Operation

Introducing The *Raceclock Wireless Gun-Start System*

- Wireless starts using a starting gun at distances up to 450 ft depending on obstacles.
- Receiver unit plugs into Raceclock's Remote Control port.
- Gun Transducer (transmitter) attaches to barrel of starting pistol utilizing an adjustable Velcro strap.
- Can be used to start multiple Raceclocks and Time Machines at the same time.
- Rugged, sealed and waterproof Gun Transducer does not require battery replacement.
- Gun Transducer's internal battery typically lasts up to 20 years or for up to 1.6 million starts.
- No On/Off switch – Gun Transducer automatically turns on, transmits a signal and then turns off.
- Supports **Manual Timing Correction** due to using an “auto-start” with “manual” finishes:
 - Automatically inserts a 0.24sec delay per NCAA/NF rules (default mode).
 - Can bypass the Manual Timing Correction and use “No Correction” if desired.
- Receiver is compatible other wireless devices:
 - Time Machine “Wireless Raceclock Interface”
 - Wireless Keypad
 - Wireless Grip Switches
